Programme of Events

February 1-28

For York LGBT+ History Month this year, we have come together as a community to create a vibrant and inclusive programme.

The organisations involved in planning and supporting this initiative include:

- York LGBT Forum
- York Pride
- The Portal Bookshop
- Generate
- York St John University
- York Templars

Welcome

to York LGBT+ History Month 2025!

This February, we come together as a community to celebrate the rich and diverse history of LGBT+ people, both locally and globally. York LGBT+ History Month is a time to reflect on the struggles and achievements of the past, to honour the contributions of LGBT+ individuals, and to continue advocating for equality and inclusion in all aspects of life.

This year's programme has been a true community effort, brought to life by the collaboration of York LGBT Forum, York Pride, Generate, Portal Bookshop, York RI Templars, and York St John. Together, we've created an exciting lineup of events, workshops, and discussions designed to educate, inspire, and celebrate.

We invite everyone—LGBT+ individuals, allies, and friends—to join us in making this month a time of reflection, connection, and joy. Whether you're here to learn, share, or celebrate, your presence helps to strengthen our community and keep the spirit of Pride alive all year round.

Thank you for joining us, and we hope you enjoy the programme!

Event information

Please note that all events listed in the York LGBT+ History Month programme are organised by individual organisations. For event-specific details, including accessibility, booking, and changes, we kindly ask you to contact the relevant organisation directly.

The York LGBT+ History Month team is not responsible for managing or delivering these events. Contact information for each organisation is provided where applicable.

Thank you for your understanding and support.

The AIDS Crisis: An Activist Perspective - 2pm - 4pm.

Location: Denham Room, Priory Street Centre, 15 Priory Street, York

This year, LGBTQ+ History Month highlights the theme 'Activism and Social Change', celebrating the transformative power of collective action in advancing equality and human rights.

ACT UP (AIDS Coalition to Unleash Power) emerged in the late 1980s as a grassroots organisation fighting the AIDS crisis. Through bold and impactful direct action, ACT UP chapters worldwide demanded urgent government responses, pushed for equitable access to treatment, and championed the rights and visibility of people living with HIV/AIDS.

This event offers a unique opportunity to join a fireside conversation with two former UK members of ACT UP.

Rob Archer was originally involved in ACT UP (New York) before co-founding ACT UP (London), and later continued his efforts in Edinburgh. Kenny Lieske, a co-founder of ACT UP in Edinburgh, was among the first AIDS activists in the UK to face arrest for his advocacy.

Together, Rob and Kenny will share personal photographs, artefacts and memories, reflecting on life before the AIDS crisis, their experiences as activists, and their respective journeys afterwards.

A Q&A session will follow, inviting participants to engage with their stories and insights

LGBTQ+HM 2025: Being Gay in Thatcher's Britain - 4pm

Location: York St John University

2025 marks the fortieth anniversary of AIDS becoming a household name in the UK.

From the death of well-loved actor Rock Hudson to the introduction of the first HTLV-III antibody test, society was waking up to the reality of a serious epidemic. Whilst the LGBTQ+ community had valiantly rallied together to fight the disease, ignorance and misinformation, it was clear that more needed to be done, to counter the panic in the mass media which labelled the disease the "gay plague."

The Government responded with the "Don't Die of Ignorance" public health campaign in the mid-1980s. However, this campaign – including its motivations, messaging, craft, and response – must be viewed in the context of the stigmatisation and moral panic surrounding people living with AIDS in Thatcher's Britain.

This talk will introduce new research about how the government responded to the moral panic of the AIDS crisis in the 1980s, and how politics and public policy emphasised the marginalisation of Britain's LGBTQ+ community. Set amongst the backdrop of the struggle for equality, the AIDS epidemic would eradicate the little gains this community had so carefully fought for, once again setting 'gayness' alongside 'disease' in the minds of the British public.
